Castle Veterinary Clinic

D O R C H E S T E R & W E Y M O U T H

Castle Vets is the only independent veterinary practice in Dorchester and Weymouth. At our main practice in Poundbury and our branch in Broadwey our vets and veterinary nurses aim to provide excellent care for your pets at a fair price.

We are keen to help you give your pets a long, active and healthy life and strive to provide complete care for our patients. We have tailored preventative care plans provide parasite control and vaccinations, weight monitoring and regular health checks. Our veterinary nurses can provide advice on preventative care, weight control, special care of senior pets, and carry out post-operative checks. Our five experienced vets can treat most medical and surgical problems at the practice, and we ourselves provide out of hours care for our patients.

Our receptionists, nurse and vets are continually updating their training. Being independent means we are able to continue traditional values of care for our patients and service for our clients, whilst still progressing and adopting new technologies: for example we are able to transmit ultrasound images, heart sounds and ecg in real time to a cardiac specialist who can then guide our investigation; existing clients can book appointments online via our website. www.castlevets.co.uk

We can of course still be contacted on the phone: 01305 267083
