

This leaflet shows the five minute walking zone that has been mapped out by our pupils, and an estimated ten minute walking zone.

In order to reduce congestion at the school gate we would like people who currently arrive by car to try parking outside of the walking zones and walk the rest of the way to school.

This will improve safety and the environment around the school site for everyone and allow the opportunity for some healthy exercise at the start and end of the school day.

Thank you for supporting our walking zones.

Pupils from the school mapped and walked the routes to measure how far you can get in 5 minutes.

If you live inside the walking zones you could walk or cycle to and from school every day. Even if you need the car to travel to work, it may be quicker and easier to leave it parked at home while you walk to school.

If you live just outside the zone, try walking or cycling - it could be quicker than you think!

If you have to travel by car to school, please try to park outside the walking zone, with care and consideration for local residents, and walk the rest of the way.

The Prince of Wales School

Walking Zone

Our aim is to reduce traffic congestion around the school, and encourage families to walk at least part of their journey to school.
