

ECO SHED 2020

Below are the list of items that we take in our Eco Shed. Please recycle these either in the eco box located in your child's classroom or in the storage box just outside the front of the school (to the left of the main doors). Could we please ask that you **only** give us the items that are stated below. Many items are being dropped off in the eco shed that we no longer take but many items will go in your general recycling bins at home. Thank you for your continued support.
